

SALES CONDITIONS

Our prices include all airports fees and services offered on the different airports (land duty, passenger duty, one handling). They not include VAT taxes whose application depends on the statute of the customer (exonerated or not) or on the country where the services are perceived.

Our prices are applicable for VFR flight, no supplement is requested in case of IFR flight. A supplement is perceived if the weather conditions did not allow a through flight.

Types of operated helicopters:

Twin engine helicopter type:

- Agusta 109 – VIP – 5/6 seats

Single engine helicopters type:

- AS350B3 - VIP - 5 seats
- Robinson R44 – flights and school piston engine – 3 seats

Swiftcopters SA keeps the possibility to change whenever they want these types of operated helicopters list.

Cancellation for weather condition:

Current prices list concern helicopters flights that are only possible with good weather condition. For security reason, if the weather conditions happen to get bad, Swiftcopters SA conserve the possibility of cancelling the flight before take-off or rerouting the helicopter during the flight.

If the flights is canceled before take-off, Swiftcopters will refund the total payment.

Payment and cancellation fees:

A confirmed reservation insure the availability of the helicopter to customer. Usually, Swift Copters customers are asked to pay flights when they order. A payment on invoice after a flight, or by credit card can be exceptionally granted. In case of cancellation of a flight for personal reasons, a deposit will be kept according to followings:

- 100% of the flight price if cancellation within 24h
- 50% of the flight price if cancellation between 48h to 24h
- 25% of the flight price if cancellation between 5 days to 48h
- 0% of the flight price due to bad weather conditions that would prevent the flight
